Summary of the purpose of the framework

Defining Apprenticeships

An Apprenticeship is a job with an accompanying skills development programme designed by employers in the sector. It allows the apprentice to gain technical knowledge and real practical experience, along with functional and personal skills, required for their immediate job and future career. These are acquired through a mix of learning in the workplace, formal off the job training and the opportunity to practice and embed new skills in a real work context. This broader mix differentiates the Apprenticeship experience from training delivered to meet narrowly focused job needs.

All apprentices commencing their Apprenticeship must have an Apprenticeship Agreement between the employer and the apprentice. This can be used to reinforce the understanding of the requirements of the Apprenticeship.

On completion of the Apprenticeship the apprentice must be able to undertake the full range of duties, in the range of circumstances appropriate to the job, confidently and competently to the standard set by the industry.

The aim of this apprenticeship is to meet the needs of employers for an expansion of training programmes and to widen recruitment into the playwork sector at intermediate and advanced levels.

The Intermediate Level Apprenticeship in Playwork is primarily aimed at those aged 16 and above, who want to start a career in the playwork sector.

The Advanced Level Apprenticeship in Playwork is suitable for individuals already working in the sector who are looking to gain qualifications and skills, or to organisations already involved in the sector looking to develop and upskill their staff to deliver a quality service to children and young people.

Aims and objectives of this framework (England)

The aim of this apprenticeship is to meet the needs of employers for an expansion of access to training programmes and to widen recruitment into the playwork sector.

Objectives

To contribute towards:
1. meeting the generic skill priorities for the sector. This includes safeguarding and wellbeing, communication, team working, customer service and employability skills;
2. addressing playwork specific skills gaps in order to provide a quality, inclusive, welcoming, stimulating and safe staffed environment in which children can play;
3. bringing about a more diverse workforce which reflects the community it serves;
4. business sustainability by increasing the number of staff with level 2 and / or level 3 qualifications to meet inspection and user requirements;
5. progression pathways beyond level 2 and 3 within playwork and the wider children’s workforce;
6. increasing the number of level 3 qualified staff in order to enhance the sector capability to deliver provision.

The framework will achieve the above objectives by:

- Ensuring that the apprentice gains technical skills and is also equipped with functional skills such as communication, team working, customer services and leadership & management;
- The Playwork People 4 research paper details the list of specific playwork technical skills gaps. Highest on the list is knowledge of playwork values and principles. The apprenticeship framework has all these required skills and knowledge covered within its structure, therefore any playwork settings opting for an apprentice will gain a fully rounded and well qualified individual with appropriate and thorough knowledge, technical skills and a positive attitude highly valued by the sector;
- Playwork is a female dominated and predominantly white profession. By encouraging more employers in a wider variety of play settings to take on apprentices it will contribute to a more open access entry to the sector creating a more diverse workforce;
- Regulatory requirements state that each playwork centre must have 50% of its staff qualified to a minimum of level 2, and a minimum of one person qualified at level 3 as a supervisor or manager. However current sector specific research suggests that 44% of the workforce have no playwork qualifications at all, only 7% have level 2 qualifications and 48% have qualifications at level 3 or above. It is essential that the sector recognises the holistic value of the framework as opposed to an apprentice just gaining a single qualification. This framework will directly contribute to this regulatory requirement being satisfied by increasing the number of staff qualified at level 2 and 3. In turn, this will positively impact on succession planning, business sustainability as well as customer satisfaction.
- This framework will contribute to a better qualified and skilled workforce and provide a clearer progression and career pathway for playwork and the wider children’s workforce.

The Intermediate and Advanced Level Apprenticeships in Playwork also contribute to a number of goals within the SkillsActive UK Play and Playwork Education and Skills Strategy 2011–2016, namely:

- A reduction of skills gaps and shortages.
- An improvement in productivity, business and public service performance.
• An increase of opportunities to boost the skills and productivity of everyone in the sector’s workforce.
• An improvement in the learning supply through...Apprenticeships...
Entry conditions for this framework

The Intermediate Level Apprenticeship in Playwork is designed for those individuals who wish to work in a playwork setting and who want to develop their skills and knowledge. The Advanced Level Apprenticeship in Playwork is designed for those individuals who are looking to further develop their knowledge and skills to progress their careers in the sector or for those who are already employed in a play setting looking for career progression.

It is good practice that apprentices are interviewed by both their employer and training provider and undergo a centre devised initial assessment, testing their literacy and numeracy skills as well as their attitude to the workplace and customers.

Potential apprentices should have a positive, motivating and can do attitude with the ability to work both as part of a team or on their own, and the willingness to work shifts and travel between sites. They should expect to undergo a Criminal Records Bureau check.

Apprentices will be given the opportunity to gain literacy and numeracy qualifications alongside their industry related skills and qualifications while studying on this programme.

It is not a mandatory part of this framework to achieve ICT qualifications, although apprentices are encouraged to take every opportunity to broaden their skills base.

How equality and diversity will be met

The Intermediate and Advanced Level Apprenticeships in Playwork aim to promote diversity, opportunity and inclusion by offering a high quality learning experience.

The delivery of these programmes must be in a setting free from prejudice and discrimination where all learners can contribute fully and freely and feel valued.

Employers / providers must be able to demonstrate their selection, recruitment and employment practices are in line with the Equality Act 2010 and that there are no overt or covert discriminatory practices in relation to any of the following protected characteristics: age; disability; gender reassignment; marriage and civil partnerships; pregnancy and maternity; race; religion or belief; sex; sexual orientation; and socio-economic disadvantage.

ISSUES, BARRIERS AND ACTIONS

Playwork is historically a female dominated profession (86%) with 88% of the workforce being from a white background.

By encouraging more employers from a wider variety of play settings to take on apprentices, we will not only increase the uptake of playwork frameworks, but also contribute towards encouraging more open access to the sector and representation of a wider variety of communities and employees.

Total GLH for each pathway

Legal Requirement
The Specification of Apprenticeship Standards England (SASE) states that apprentices must complete a minimum of 280 Guided Learning Hours (GLH) per year when undertaking an Intermediate Level or an Advanced Level Apprenticeship. Definition:
ON THE JOB = Time spent learning in the workplace
OFF THE JOB = Time spent away from the area of work. This could be time spent with a training provider or Further Education college or completing functional skills.

Intermediate Level Apprenticeship in Playwork
The total guided learning hours for this framework is set at 572 GLH and we advise the framework to be completed within 12 months. Therefore the total GLH for year one of this programme will be 572 GLH which exceeds the minimum legal requirement of 280 GLH per year.

We propose that this will be evidenced through apprentices holding an Activepassport, which is an online skills passport supported by leading employers and training providers. It allows learners to easily build and maintain a verified record of their skills, qualifications and achievements and keeps track of an individual's progress within and commitment to their career and professional development.

Additional employer requirements

While the achievement of additional employer requirements is not a mandatory requirement for certification of these apprenticeship programmes, the sector and employers recognise the value and the need for these and completion of them will make the apprentice more employable. Therefore it is also advised for all apprentices on these programmes to achieve or hold a valid Paediatric First Aid, Food Hygiene or Health & Safety qualification.

Please note that this element of the apprenticeship programme is not funded, it is the employer’s responsibility to make sure the additional employer requirement of the programme is achieved.

Apprentices may use Recognition of Prior Learning (RPL) for one industry skill that was achieved up to 6 months prior to the commencement of the apprenticeship.

It is essential that the choice of qualification be based on the needs of the organisation and the need to provide the apprentice with the appropriate skills in their area of work.
